

# Building Activity Becomes General In El Paso

Apartment Houses, Bungalows and Big Tenements Are Under Way.

Another big apartment house was started today, on the corner of Angelo and Rio Grande streets. M. B. Roberts and W. M. Sanger are the owners, and the contractor is V. E. Ware. The apartment will be three stories and will contain 12 apartments of four rooms each. It will be thoroughly modern, and will be built of brick, with hardwood floors throughout. The building will cost about \$25,000.

**Building Modern Bungalow.**  
The Phoenix-El Paso Building company is erecting a bungalow of five rooms and bathroom, with heating plant, on lots 19 and 20, in block 94, East El Paso, which will cost, when completed, about \$4100. It is being built for Mrs. Ada Lee Boynton.

**Putting Up Bungalow and Cottage.**  
The White Building and Improvement company is building a tenement on lots 7 and 8, in block 46, Macosilla addition, for Mrs. Melquades M. de Portillo, which will cost about \$2000.

This firm also has under construction a five-room cottage at 900 South Campbell street, on the corner of Canal

street, for J. Ortega. It will cost about \$2000.

**Three Tenements.**  
For D. Baker Smith, this firm is building a 10-room tenement of brick on the corner of Broadway and Seventh street. It will cost about \$35,000.

For Rafael Gonzalez, this firm is building an eight-room tenement, store and bottling works combined, which will cost about \$2700. This building is on the corner of Fourth and Park streets, and has completed a 20-room brick tenement at 713 Broadway for the White-Paden Realty company, which cost about \$35,000.

**Erecting Two Bungalows.**  
The Mayfield Building and Improvement company is building for A. Solis a bungalow in block 91, East El Paso, which will cost about \$4000. This same firm is building for J. M. Barnes a bungalow which will cost \$2500. This will be on Montana street, in the 25th block.

**Valley Lands in Demand.**  
With the advent of spring realty men interested in valley lands report a considerable increase in demand. Auto trips are being arranged and it is expected that valley land will soon resume its prominent place in the local realty market. A much better feeling is manifest in all real estate circles than six months ago and this feeling is particularly noticeable as regards valley lands.

**Complete Plans for Bungalows.**  
The Perry Kirkpatrick Realty company has completed plans for three modern bungalows to be located on lots 19 to 21, block 94, Sunset Heights addition, at a cost of \$4000 each. The houses will be of five rooms and bathroom, and will be equipped with all modern features. The same company now has under construction for Mr. and Mrs. R. B. Alvar, on Hawthorne place, an English house that will cost \$7000.

**OLD FAVORITES AT BAND CONCERTS**  
For the Friday afternoon band concert at Fort Bliss by the 15th cavalry band, chief musician Rocco Resta, the band director, has prepared a program which includes several old time favorites, among them "My Old Kentucky Home," "Rocked in the Cradle of the Deep," and "Polka Up Willow Creek." The concert will start at 4 p. m., and the program follows:

March, "The Gay Minstrel"..... Bellini  
Overture, "Norma"..... Bellini  
Waltz, "My Old Kentucky Home"..... Edwards  
Selection, "The Gay Minstrel"..... Edwards

Solo for baritone, "Rocked in the Cradle of the Deep"..... Rollinson  
Performed by principal musician Kim Rags, "Polka Up Willow Creek"..... Carlton  
Chief musician Rocco Resta is director.

**MOTORCYCLIST IS HURT IN COLLISION**  
C. E. Lusk, living at 308 Myrtle avenue, riding a motorcycle collided with a five passenger Overland automobile, auto license No. 629, driven by John J. Gaudin, in front of the Lamar school on East Boulevard Wednesday afternoon at 4:45 o'clock. Lusk sustained a painful cut on the back of his head and his left leg was injured. The injured boy was carried into the home of Mrs. W. S. Wheeler, 1600 East Boulevard, and later taken to his home by Dr. H. T. Safford who did not consider his injuries serious.

One of the steering rods on the automobile was broken and the auto came up on the sidewalk before it was stopped. The tire on the left front wheel of the automobile was slipped when the wheel of the motorcycle struck it.

## Pecos Valley to Plant Much Corn

### FIRST CUTTING OF ALFALFA IN MAY

Crop in Pecos Valley Now Four Inches High; Snodgrass Pests Being Used in Orchards to Counteract Frost.

Roswell, N. M., March 26.—The first cutting of alfalfa will begin about the middle of May, unless an unforeseen freeze should occur and retard the growth of the crop. The alfalfa is now up four inches. It is about two weeks further advanced than it was a year ago.

The early cutting this year is attributed largely to the winter irrigation. Heretofore only a few realized the benefits to be derived from winter watering. This year, however, winter irrigation in the valley was general.

The fruit men of Roswell and its vicinity are finishing pruning their trees and are getting ready to spray and spray. Already some of the orchardists have had their oil pots lighted, among these being Capt. Charles L. DeRemond.

The out crop in the valley is looking fine. The winter crop has grown fast, owing to moderate weather, but the farmers are pasturing it down to keep it back.

Apple men expect a fancier crop this year than heretofore, because they have paid more attention to scientific methods. The pruning and irrigation have been more thorough, and the strict enforcement of the spraying law has had splendid results.

**CARLOAD OF BEANS SHIPPED TO OKLAHOMA FROM PORTALES**  
Portales, N. M., March 26.—O. S. Strickland has shipped a carload of beans to Lawton, Okla. The beans were bought from farmers in the Portales valley. Mr. Strickland says he could sell several more cars if he had them. Cash was paid for the beans and a good price paid the farmers and a neat profit reaped by the shipper.

**CHANDLER COTTON SOLD IN EAST.**  
Chandler, Ariz., March 26.—Advises have been received from Providence, R. I., that 67 bales of third grade Egyptian cotton, shipped by the Chandler Cotton Growers' exchange, were sold there for 19 cents a pound. The first and second grade cotton has not been sold yet and should bring more than 20 cents.

**3000 ACRES IN COTTON.**  
Yuma, Ariz., March 26.—Cotton will be grown on 3000 acres of land in the Yuma valley this season. Arrangements have been made by the Cotton Growers' exchange to secure seed from the Imperial valley at 22 cents a pound.

**BIG COTTON ACREAGE NEAR MESA.**  
Mesa, Ariz., March 26.—According to figures gathered by the managers of the reclamation service, 2275 1-2 acres in the Mesa district will be planted to Egyptian cotton this season. Last year the acreage was a little over 4000.

**HERALD ADS SELL BURROS IN HURRY**  
Burros for sale cheap. Phone 1691.

Burros are bought and sold through The Herald. A burro was advertised for sale in the classified department, the ad to run six times. The burro was sold the second day and many calls were received after the sale was made.

Pork hams sold, 20c. Optiz Market, phone 124.—Advertisement.

### Newcomers From Middle-West Will Try Their Favorite Grain.

Roswell, N. M., March 26.—There will be more corn planted in the Pecos valley this year than in the history of farming in southeastern New Mexico. Many new farmers from the middle western states, together with some recent yields last year, have combined to encourage the planting of corn on an extensive scale.

In the growing of corn in the Pecos valley, spraying has been found necessary to insure the greatest yield. Both the dry and liquid spray will be used, since each has proved efficacious.

**Fertilizer Being Planted.**  
Fertilizer, a new crop, is being tried extensively in this section this season. Fertilizer is a dry land grain, producing abundantly without much moisture. It is being planted in small tracts, mostly on the upper or table lands. The largest single tract of fertilizer is being planted by Robert Beers on his home land.

**Fewer Sweet Potatoes.**  
There will be fewer sweet potatoes planted in the Pecos valley this year than ever before. An unstable market is partially to blame for this, while the fact that the growers have not yet learned to store the yam properly, also has had the effect of cutting down the stock and cut as they came to it.

After eating this food cattle drink heartily and so far as I have been able to determine experience no evil effect whatever. I have never fed a forage I liked so well. Cattle devour it greedily, yet never eat too much of it. It has some of the good effects of alfalfa, but none of the evil effects of this hay. It is very fine for milk cows. I find that a slight taste is given the milk, but it is such as alfalfa gives and is not disagreeable. In fact I like the taste better than the normal taste of grass milk.

**ARTICHOKE AS HOG FEED.**  
The artichoke has drawn the attention of farmers to planting something that can be used for hog feed. The artichoke is believed to be the best hog feed for this region. It can be grown prolifically in this section and with good soil and plenty of water artichokes will produce 250 pounds to the acre. Artichokes are good also for horses and cows and some people cook them like Irish potatoes.

**ARIZONA TO PRODUCE CANTALOUPE GALORE**  
Phoenix, Ariz., March 26.—The Salt River valley cantaloupe crop will be at least 33 percent heavier this year than last. In the Mesa section 1200 acres will be planted to the little ribbed melons, and between 500 and 600 cantaloupes will be shipped. At Glendale 950 acres will be planted to cantaloupes and the shipments will be in the neighborhood of 400 cars. The entire crop has already been contracted for by Chicago, Pittsburgh and New York commission houses. Shipping will begin about July 1.

**PLAN FOR MAINTENANCE OF IRRIGATION LATERALS**  
Phoenix, Ariz., March 26.—A plan for government maintenance of private irrigation laterals has been submitted to the Salt River Valley Water Users' association by the reclamation service. The plan provides for a quick claim deed to each lateral, which must be supplied by the government by the expense. The lateral will then be maintained by the project. It is believed that the government can eliminate many of the laterals now used and that the saving over the present system will be considerable.

**\$10,000 LAND SALE MADE IN THE PORTALES VALLEY**  
Portales, N. M., March 26.—Annville parties have purchased 240 acres of land in the Portales valley. The land is some of the best in the shallow water belt and the new owners propose to develop it immediately, installing a pumping plant and placing the entire tract under irrigation. Water is found at 12 feet.

### RUSSIAN THISTLE MAY RIVAL ALFALFA

Actual Experience of C. H. Hittson, of Tucuman, Proves It Is Fine Feed for Dairy Cows.

Tucuman, N. M., March 26.—That the Russian thistle, heretofore despised as a farm pest and burned wherever possible, is valuable as a feed for dairy cows, is the discovery made by C. H. Hittson, a Tucuman attorney. In fact, according to Mr. Hittson's experiments with the thistle, it may rival alfalfa as a food for livestock. In giving the particulars of his experiments with the Russian thistle as a forage plant, Mr. Hittson says:

"In July of last year I cut about 20 tons of this plant before it began to bloom. I used an ordinary mow and ran the rake immediately behind it. Hauling and stacking the thistle as soon as possible after the cutting, for as is known, it is very difficult to handle after it dries. There is no need of curing it. I put the hay in a long barn from end to end and had the hay tramped down thoroughly. In January I opened the barn and started feeding. I let the cattle go into the stack and cut as they came to it. After the front portion was eaten away I frequently let a few cows in the barn with full access to the stack all night. They would eat all they wanted and then lie down contentedly.

"After eating this food cattle drink heartily and so far as I have been able to determine experience no evil effect whatever. I have never fed a forage I liked so well. Cattle devour it greedily, yet never eat too much of it. It has some of the good effects of alfalfa, but none of the evil effects of this hay. It is very fine for milk cows. I find that a slight taste is given the milk, but it is such as alfalfa gives and is not disagreeable. In fact I like the taste better than the normal taste of grass milk.

"I have been informed by Prof. Mundell of the United States experiment station near Tucuman, that Russian thistle tests out with timothy hay. For my part I want nothing better for cattle than Russian thistle."

**EXPOSITION FARES MADE NEARLY ONE FARE RATE**  
San Francisco, Calif., March 26.—A one way fare for the round trip for the Panama-Pacific exposition in San Francisco and the Panama-California exposition at San Diego in 1915 from all points west of Chicago, was agreed upon here Wednesday by the Transcontinental Passenger association.

It is probable that tourists will be able to take in both California expositions on one ticket. In the case of those who are routed one way through northwestern points, the usual Shasta route will be added.

The rates go into effect March 1, 1915, and will end November 20. The tickets will have a return limit of three months, with the proviso that no returns will be good after December 31, 1915. The exhibition gates open on February 20, and close December 4, 1915.

St. Louis, \$57.50; Chicago, \$62.50; Denver, Colorado Springs, Pueblo, \$15; Portland, \$23.25. The rate from New Orleans, which was not settled today, probably will be given out tomorrow and there will be proportionate rates from all points.

**PREPARING TO ENTERTAIN TEXAS CLERKS AND CARRIERS**  
Postoffice clerks and mail carriers are preparing to entertain the Texas letter carriers and clerks, who will meet here in July. A meeting of the clerks and carriers' entertainment committee was held in the postmaster's office recently and arrangements made to entertain the visiting delegates who will be here on July 2 and 4. Another meeting of the committee will be held on April 5. Postmaster J. A. Smith, assistant postmaster M. L. Burleson, C. C. Gibson, superintendent of mails, and Herbert Colden, chief of maintenance of mails, met with the committee and will cooperate with them in arranging for the state meeting here.

**The Joy Of Coming Motherhood**  
A Wonderful Remedy That is a Natural Aid and Relieves the Tension.

Mother's Friend is the only remedy known that is able to reach all the different parts involved. It is a penetrating external application after the formula of a noted family doctor, and lubricates every muscle, nerve, tissue or tendon involved.

By its daily use there will be no pain, no distress, no nausea, no dizziness, no fainting, and the period will be one of supreme comfort and joyful anticipation.

Mother's Friend is one of the greatest of all helpful influences, for it robs childbirth of all its agonies and dangers, dispels all the doubt and dread, all sense of fear, and thus enables the mind and body to await the greatest event in a woman's life with untrammelled gladness.

You will find it on sale at all drug stores at \$1.00 a bottle, or the druggist will gladly get it for you. Mother's Friend is prepared only by the Bradford Regulator Co., 237 Lamar Bldg., Atlanta, Ga., who will mail an instructive book to expectant mothers. Write for it to-day.

**Breaks the Fetters That Bind Men.**  
Hundreds Here Know It.

"Break away from that ailment or complaint that unfits you for business or pleasure. You cannot expect the fullest enjoyment or pleasure in life fettered to a 'drag'." says an eminent physician, writing to a prominent business man in this city. "Break the fetters that bind you! Throw them off. Begin a new life to-day—now. Regulate the hours of sleep. Choose carefully your food. Read cheerful inspiring papers or books. Let the following symptoms be conveyed regularly for several weeks or months and all such symptoms as these will vanish: Dull, sunken eyes; cold extremities; backache, headache, sleeplessness, thinness (or over fat), weakness in the spine, twitching, spots before the eyes, pain in back of head, trembling, fatigue, dependency, impaired memory, loss of appetite, flabby muscles, shrinking skin, constipation, kidney disorders and a general restlessness and inability to do important duties when they should be done."

For the benefit of those who want a restoration to full, bounding health and all the happiness accompanying it, the following home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at a teaspoon and no one will be the wiser as to your affliction.

The treatment is simple, thorough and non-drag. Leading druggists supply the main ingredients, extracts and essences in one-ounce bottles, ready to mix. Get three ounces syrup sarsaparilla compound, mix with one ounce compound fluid balsam, and stand two hours. Add one ounce compound essence cardiol, and one ounce tincture codonine compound (not codonine). Shake well and take a teaspoonful after each meal and one at bedtime.—Advertisement.

#### LAXATIVE FOR OLD PEOPLE—"CASCARETS"

Salts, Calomel and Pills act on Liver and Bowels like pepper acts in Nostrils—Danger!

Get a 10-cent box now. Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscular. So all old people need Cascarets.

One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

**RAISE THEM**  
But You Are Making a Mistake

If you are not feeding your chickens Perfection Hen Food

A trial order will convince you.

**W. D. Wise & Co.**

Retail Store, 105 N. Stanton.

Office and Warehouse, Cor. 2nd and Chihuahua Sts.

High Grade Seed, Grain and Poultry Supplies.

**Freedom After Years of Toil and Worry**

What a blessing it is to be independent in old age!

How grand it must be for an old couple to say "We do not need the help of anyone." If you could only realize the tremendous influence of a bank account on old age you would commence to save today—you would save more than you do.

Remember that a time will come when your earning capacity will decrease—an account with this bank will protect you.
